We will find the common and the different elements of the European mythologies and we will comp</p> <p>Description</p> <p>The project “Legend of the great birth” (Le.Gre.Bi) will look into the myths, the tales and the mythology that was formed for the Birth and Creation of this and our universe. The stories of each culture and country as it explains it and expresses it. The pantheon of the Gods and heroes of each mythology will consist as inspiration and the spark for performances, workshops, lectures, publications and high quality events in the partners countries.</p> <p>In this respect, the LeGreBi project is aiming at arousing and inspiring cultural institutions to enhance their folkloric agenda, by especially targeting the oral tradition like fairy tales and myths of creation and not only.</p> <p>The mythology and fairy tales is an ark that perishes the particular elements of each culture. These elements include the ethics and customs</p>

of people, the working habits, the happiness and sorrow, the struggle with weather, the man's ingenuity and sensitivity and the love that a nation expresses for life.

In accordance with the requirements of the "Culture" program, the project partners will explore and create cultural events and theatrical performances to promote the power of tradition and mythology of every nation. More specifically, each participating organization will work on its country's myths and fairy tales and prepare and deliver its own performance and activities. In this respect, the partners will present the play, demonstrating thus the common cultural characteristics of countries and nations. The performances will travel and will be presented in partners countries.
