Proposed Creative Europe project – to which project are you looking for partners?

Sector or field	Mobile apps, digital arts and immersive technology, multimedia, interactive art, audiovisual, visitor experience, accessibility projects
Description or summary of the proposed project	We are available to participate in projects as a technology partner. We are very interested in experimenting new ways of interaction with visitors of museums or cultural heritage. We believe in the power of narrative and storytelling to engage users and how mobile applications and AR and VR experiences can open up new possibilities for communicating information to visitors. We would like to use our participation in Creative Europe projects to broaden our scope of projects and move towards experimenting with different technologies that are currently being developed.

	We would also like to work on accessibility projects with a focus on information accessibility because it is an area where we have a lot of experience and a great commitment.
Partners currently involved in the project	None
